## **Professional Goal**

My professional goal is to be a developer specialized in react, applying my knowledge at Chumi-IT in order to contribute with innovative solutions. And I also seek to improve my non-technical skills such as my soft skills and always keeping myself updated with trends and good practices in the market with the purpose of continuously evolving in my career.

## **Professional experience:**

### *Freelance Web Developer (2016 - present)*

- I work as a freelance web developer, providing software development services for several companies, from startups to large companies.
- I mainly develop frontend web applications, using technologies and frameworks from the JavaScript ecosystem, such as React and NextJS.
- I am responsible for developing, testing and deploying web applications, as well as ensuring they are scalable, secure and high performing.
- I also create and implement UI/UX designs, collaborating with design teams and other development teams.
- I have experience working with agile methodologies such as Scrum and Kanban and managing software projects from start to finish.

## **Skills and Competencies:**

- Frontend web development using technologies and frameworks from the JavaScript ecosystem, including React, NextJS, Styles Components, Typescript, API's RestFull, MySQL, GrapgQL, NodeJS e Linux.
- UI/UX design and collaboration with design teams.
- Teamwork and effective communication.
- Experience in agile methodologies such as Scrum and Kanban.
- End-to-end software project management.
- Troubleshooting and conflict resolution.
- Adaptability and flexibility in changing work environments.
- Passion for technology and constant updating of knowledge.
- Proactivity in the search for new challenges and opportunities.

## **Extracurricular Activities and Volunteering:**

- Participation in technology bootcamps and hackathons, where I developed personal projects and worked as a team to create innovative solutions to real-world problems.
- Participation in electronic sports competitions, where I learned teamwork, communication and leadership skills.
- Cycling, keeping active and healthy while also enjoying the outdoors and nature.
